Summary

Nationally recognized expert on government healthcare databases with personal contacts within federal and state government agencies that facilitate access to both public and non-public use files. More than twenty-five years of research experience extracting usable information from large government databases for industry and policy makers. Known for the ability to creatively combine and array large databases, perform sophisticated analyses of data, and express the results to non-technical audiences.

Professional Experience

COWLES RESEARCH GROUP

President

McMinnville, Oregon

1995 - present

Founded a consulting firm specializing in health services research.

- Create databases and reports that provide clients with critical information for strategic planning, academic research, litigation support, and quality improvement.
- Access difficult-to-obtain databases, including non-public use files of CMS, such as the nursing home enforcement action and complaint survey databases.
- Produce the *Nursing Home Statistical Yearbooks* on an annual basis.

MUSE AND ASSOCIATES

Director of Health Data Systems

Washington, DC

2002-2005

Conducted original research on Medicare and Medicaid utilization and expenditures, some of which was proprietary and confidential in nature. Authored studies included:

- “Nursing Home Staffing Changes in Response to October 1, 2003 Rate Correction,” also known as “The Grassley Study.”
- “Lifetime Benefit Analysis of Medicare Part D Prescription Drug Program.”
- An audit of the data analysis methodology for cost analysis performed by the National Association of Home Care.

HEALTH DATA ASSOCIATES, INC.

President

Tacoma, Washington

1992-1994

Founded a consulting firm specializing in health care databases. Published *Nursing Home Yearbook: 1994*, a statistical yearbook on the nursing home industry.

AMERICAN HEALTH CARE ASSOCIATION

Senior Manager, Research and Data Programs

Washington, D.C.

1991 - 1992

Established an in-house research capability for the largest nursing home association in the United States.

- Created a clearinghouse of long-term care data, information, and research for the public, the research community, and the long-term care industry.
- Conceived, designed, and completed a statistical study testing the interdependence of nursing home deficiency citation rates, providing for the first time empirical hypothesis testing of surveyor consistency, used in formal comments to the Health Care Financing Administration's proposed regulations.
- Conducted a national study of nursing home survey activities in conjunction with George Washington University School of Medicine faculty.

UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH CARE FINANCING ADMINISTRATION (HCFA)

OFFICE OF RESEARCH

Economist

Baltimore, Maryland

1987 - 1991

Conducted original health services research using large government databases.

- Combined files used to administer the Hospital Prospective Payment System to model the impact of financial and compliance audits on Medicare Cost Report variables.
- Supervised internal and external research relating to expenditure targets and volume performance standards for Medicare physician payment reform.
- Acted as a Project Officer and a Grant Review Panel Chairperson.

UNITED STATES DEPARTMENT OF ENERGY

FEDERAL ENERGY REGULATORY COMMISSION

Economist

Washington, D.C.

1979 - 1987

Conducted original research for public utility rate setting purposes.

- Served as an expert witness in administrative law court.

- Created and maintained a large accounting database of actuarial capital property records of federally regulated energy companies.

Education

M.S., Economics, University of Vermont, 1980.

B.A., Economics, Ripon College, 1975.
